

Jamie Peterson
WV DEP
Office of Oil & Gas

Date: November 15, 2011

Dear Mr. Peterson,

It's my understanding from talking with Rod Dillon that you have concerns about how we will monitor our disposal well (47-087-01572) while in use. Our proposal is to visually inspect the well while disposing of fluid. The well will be monitored by inspecting around the surface casing, and viewing the open two inch pipe on the 8 5/8" casing to assure there is no leaks.

Thank You

A handwritten signature in black ink, appearing to read "Harold Hamrick". The signature is written in a cursive style with a large, sweeping flourish at the end.
